Homeless ID Project in the news

Homeless ID Project and ADOT raise awareness about lack of IDs for homeless

Homeless ID Project is Arizona’s only full-time provider of replacement identification services for individuals experiencing or at risk of homelessness. Access to identification is the critical first step to stability, and a powerful, one of a kind partnership is helping us reach even more people in need.

Through collaboration with the Arizona Department of Transportation (ADOT), and the Arizona Motor Vehicle Division (MVD), we’ve expanded access to vital ID services. Clients can now get replacement state-issued IDs without the hardship of traveling miles to an MVD office. MVD’s on-site office, equipped with computers, a printer, scanner, and camera, is staffed by an MVD representatives from 8 am to 1 p.m., Monday through Friday.

This partnership removes a major barrier, allowing clients to access housing, jobs, healthcare, and services needed to break the cycle of homelessness. By eliminating transportation challenges and providing essential documentation, long-closed doors are re-opened.

Your support is crucial in helping even more individuals seeking to move forward with dignity and hope.
